THE CEILING FAN COLLECTION

Hands up. Nobody move. The ceiling fan spun silently above head. These ceiling stars are wet location rated and ready to cool off any type of situation, inside or out. The setup includes 80" of lead wire, a 6" downrod and a wireless remote with each fan. The powerful motors, the 52" to 56" blades with 12° pitch keep their cool while the 22 watt LED with opal frosted glass lights up the room. Or if you don't need the lumens, you can keep the drama at full throttle with the included blankoff kit. In conclusion, all of these great specs are backed by a limited lifetime warranty. No matter which way you spin it, these outdoor, wet-rated fans are sure to keep the action chill.
